Solar panel for home 3kw price in india

3kW solar system is a powerful system that can run household appliances. This solar system is capable to generate 3000W/h electricity. 3kW solar system is the best fit for those who are looking for a complete solar solution for home including solar battery and solar inverter. This solar system allows you to run the appliances easily, but it cannot run the 2-ton air conditioner. Let's understand more about 3 kW solar system.

Most of residential homes having Water Pump, Refrigerator, Cooler, TV, Washing Machine, Laptop, Lights, Fans, Iron Press, and more. When we install 3KW Off Grid Solar System, then the capacity of solar inverter is 3KVA. As per expert recommendation, we run maximum load only 80% of inverter capacity. When we talking about regular load of homes, then it will be up to 10% to 50%. As per 75% homes survey, we found a list of home appliances and their load required to run.

Note: We never recommend to run home load more than 80% of inverter capacity, otherwise, your power backup will be very less. When we run 50% loads of inverter capacity, our backup time will be 4 hours.
