Solar panel solutions

Solar and Battery Back-Up for Commercial, Industrial, Municipal & More Don't let overhead expenses hinder your business-companies that go solar enjoy lower and more predictable electric costs, a more sustainable reputation, and the opportunity to be an industry leader.

Is Solar and battery back-up right for me? Michigan Solar Solutions works with each homeowner and their unique goals to install a solar system tailored to their property. The bottom line? Homeowners who switch to solar save tens of thousands of dollars over time and won't have to worry about rising energy costs.

MSS provides high-quality solar & battery back-up products and 5-star service in a timely and professional manner. Our hard-working and friendly team brings our customers the best in solar and battery back-up through exceptional workmanship, various warranties, and guarantees of our work.

"From the time I contacted them to when they could perform the work was by far the fastest I have encountered with any solar company. They were very quick to remove the panels for me and to get them reinstalled right away after we replaced the shingles."

"MSS installed panels and a battery system for us. I could not be happier with the entire process. The system has been running for a couple months and MSS has been extremely helpful with explaining the app for the entire system. We even rode through a one-day power outage without a hitch!"

"MSS visited our home to determine if our solar (installed in 2012) could be connected to the internet for monitoring purposes. They were prompt, professional and answered all of our questions with easy to understand answers. Their actions gave us value in Michigan Solar Solutions as a trusted company."

There are endless benefits to installing solar panels on your home, ranging from reduced energy consumption to lower utility bills. But did you know that the brand of solar panels you choose can make a difference in just how much money and energy you can save? Here are our picks of some of the best brands making solar solutions for the home.

Blue Raven Solar is a solar panel company under SunPower. Serving 19 states, Blue Raven Solar promises a 25-year manufacturer's warranty, zero payments upfront, and two years of service warranty. The company is partnered with the nonprofit GivePower, which makes solar water farms for developing regions to provide access to clean water. Blue Raven Solar also has an A+ rating from the Better Business Bureau.

Canadian Solar makes commercial and residential solar panels as well as energy storage, modules, and inverters. Canadian Solar has a 25-year power output warranty and a 12-year materials and workmanship warranty. The company provides sustainability reports on its website and achieved "year-over-year reductions

Solar panel solutions

in GHG emissions" in 2023.

Elevation Solar installs solar panels, provides insulation services, and performs solar battery maintenance, amongst other procedures. The company is available in five states, is partnered with Energy Star (and was a five-time Contractor of the Year winner), and has a 25-year solar panel warranty.

Freedom Solar installs commercial and residential solar panels, inverters, and storage batteries, serving six U.S. states. Freedom Solar offers a 25-year bumper to bumper coverage warranty and a 10-year roof warranty. The company installs three types of solar panels: Maxeon, Mission Solar, and REC.

Green Home Systems installs residential and commercial solar panels, inverters, batteries, and more. The California-based company services 21 states, and carries five solar panel brands, including Mission and Panasonic. Green Home Systems offers a 25-year warranty and performance guarantee. Systems are installed by third-party contractors and can be purchased via cash or loan.
