Solar panels tirana

Get Solar Ltd. was founded in 2020 as part of the ETS shpk company, with the extension of its activity throughout Albania. The purpose of the establishment of GET SOLAR shpk…[Read more](#)

With a qualified and trained team and staff, Global Power offers consultancy and guidance on the power, location and installation space of the equipment, as well as planning and designing down to the details of your project, as well as providing their installation and maintenance.

Our commitment to quality and performance has led us to become an authorized partner of Longi PV panels for the distribution market. Longi is a global leader in the solar industry, known for its high-efficiency solar panels and unwavering dedication to sustainability. As an authorized partner of Longi PV panels, we bring you the assurance of top-quality solar products for your energy needs.

Our mission is based on the promotion of energy production with renewable sources and low environmental impact, especially considering the very favorable geographical position that Albania has.

Global Power is committed to the highest level of quality. That's why we select the best components and industry-leading performance models to ensure your system will produce optimally. Our highly-trained installation crews take pride in delivering beautiful well-made solar arrays. From the panels to the bolts on the roof, we'll deliberately consider every piece of your installation so you can rest easy throughout its many years of service.

Your experience is central to each part of our business. We'll manage every part of the design and installation of your project with professionalism and care. We recognize the importance of home improvement projects and Global Power has made a name for itself by consistently making our customers happy.

We believe that a quality installation is worth spending extra time and not cutting corners, and we also believe in the value of following through on your commitments. We won't promise to deliver the fastest installation on the market, but with all our experience delivering solar installations we know how to come through on-time and on-budget.
