

Solar ports designs in ghana

Solar ports designs in ghana

Solar glazing is a renewable, carbon-free, environmentally-friendly and totally useable glazing product that will substantially reduce your energy bill whilst also providing an aesthetic and useful addition to your home. Solar is also VAT free and guaranteed to increase your home's value and with the rising cost of energy will start to pay for itself even sooner than ever.

Polysolar offers its innovative transparent solar canopies which can transform a terrace or garden into an all-weather living space. Offering UV protection with their modern look, our solar glass solutions work at less than 10% sunlight, meaning you can harvest solar power for longer. Any unused energy can be stored in a solar battery to use at night by our smart home energy solutions. Contact us using the form below for your personalised quotation.

We develop and install premium carports canopies, pergola etc with a focus on enhancing the beauty of your home, protection for your cars and providing outdoor shade for our cherished clients.
