

Solar storage prague

The 8th annual prestigious conference on Solar Energy and Storage in the Czech Republic, organized by the Solar Association, will address the comprehensive topic of energy production from the sun and related issues. The event is scheduled to take place on May 28-29 in Prague.

– Czech Republic amidst the second solar boom– Czech Republic moving towards decarbonization– Will solar energy take the lead in the Czech Republic?– What is lacking in the Czech Republic for sustainable and secure development of solar energy?– How have changes in permitting processes impacted the sector?– Will large-scale photovoltaics with storage finally be implemented in the Czech Republic?– And more…

The 5th edition of our prestigious conference will be the biggest event dedicated to solar energy and storage. The year 2020 will be a crucial crossroads for the future of renewable energy with important legal changes expected on national and European level. We will also focus on trends such as auctions, energy storage, digitization and e-mobility.
