

## Somalia energy storage

According to the tender document, published on the media outlet ESI Africa, the selected developer will have to provide all components required by the projects. These include the solar modules, the inverters, and the batteries, as well as the cables and monitoring solutions.

Your personal data will only be disclosed or otherwise transmitted to third parties for the purposes of spam filtering or if this is necessary for technical maintenance of the website. Any other transfer to third parties will not take place unless this is justified on the basis of applicable data protection regulations or if pv magazine is legally obliged to do so.

You may revoke this consent at any time with effect for the future, in which case your personal data will be deleted immediately. Otherwise, your data will be deleted if pv magazine has processed your request or the purpose of data storage is fulfilled.

Somalia's Ministry of Energy and Water Resources has launched a tender for off-grid solar-plus-storage power plants to serve 46 education facilities in the southeast of the country. The deadline for bids is August 1.

The plants will serve 46 education facilities in the administrative region of Benadir in southeastern Somalia, which also covers the country's capital Mogadishu. The tender document lists 46 lots, which have minimum pv capacities ranging from 16 kW to 250 kW and minimum battery storage capacities ranging from 50 kWh to 800 kWh.

Financing for the project, known as the Somali Electricity Sector Recovery Project (SESRP), has come from the World Bank. The project's delivery period will be eight months from the effective date. Further information can be downloaded from SESRP's website.

The Multilateral Investment Guarantee Agency (MIGA) has issued a guarantee of \$5.67 million in support of a solar plus storage project in Somalia. The subsidiary of the World Bank Group will cover the risks associated with investments in Norwegian renewables firm Kube Energy which is involved in the project development.
