## Stockholm solar energy companies

Solkompaniet is one of Sweden's leading players in large-scale solar power. We develop, build and manage solar parks for landowners, property owners and companies who want to increase their ROI and contribute to the sustainable energy transition. 20 years of experience and more than a thousand delivered solar projects make us a reliable partner in the solar power industry. The majority owner is the Axel Johnson group via AxSol, a company focused on investments within solar and distributed energy.

We install large scale solar power plants in Sweden, and collaborate with companies, property owners and land owners. Let us help you through the entire process; from feasibility studies and strategies, to installation och maintenance.

Solkompaniet's subsidiary, Light Leap, is a leading distributor of energy solutions and services in the field of photovoltaics and storage. The company offers a complete product range including solar panels, mounting systems, inverters, and batteries.

Solkompaniet backs all United Nation's global Sustainable Development Goals - SDGs, but has chosen to focus on SDG11 - Sustainable Cities and Communities and SDG17 - Partnerships for the Goals, through everything we do, also SDG7, SDG8, SDG9 and SDG12 through how we work.

Our Majority Shareholder is Axel Johnson's solar energy subsidiary AxSol, our Minory Shareholders are for instance IBC SOLAR AG, a leading distributor of energy solutions and services in the field of photovoltaics and storage, and the founder of Adlibris and Apotea.se, P?r Sv?rdson.

Our solar cells, called Powerfoyle(TM), transform any kind of light - indoor or outdoor &#8211; into electrical power. Powerfoyle has a uniquely flexible and customizable design to integrate seamlessly for sustainable and attractive products.

Through our strategic partnerships and collaborations, we enhance the capabilities of our solar cell and make it easier for manufacturers to integrate our Powerfoyle solar cell into their products.
