

Tashkent energy storage companies

Aksa Energy, a global energy company with the power plant investments in 7 countries, took its first step towards globalization in 2015. Transferring its efficiency and sustainability oriented approach to overseas markets, Aksa Energy firstly entered Africa with power plants in Ghana, Madagascar and Mali which were built and commissioned in a very short period.

Following its successful investments in Africa, Aksa Energy entered Asia with Uzbekistan investment. Aksa Energy continues to diversify its portfolio geographically with Tashkent and Bukhara natural gas combined cycle power plants which will have a total installed capacity of 740 MW. In the beginning of 2021, Aksa Energy also signed a 30-year concession agreement regarding the operating rights of a natural gas power plant with an installed capacity of 50 MW in the Republic of Congo.

On 21 January 2021, Aksa Enerji ?retim A.?.s 100% subsidiary Aksa Energy Company Congo has signed a concession agreement with Republic of Congo about obtaining operating rights of a 50 MW natural gas power plant in the city of Pointe-Noire.

Natural gas is expected to be supplied from Congo's local gas reserves. Electricity generated is expected to be exported to Democratic Republic of Congo via existing transmission lines.

As Aksa Energy, we are keenly aware of our responsibility towards people and nature. We contribute to social development and ecological life especially in the regions where we set up power plants, introducing practices that set an example for the entire sector.

We conduct our operations in due consideration of the social impact we have on our stakeholders. We see our priority as contributing to the economic, cultural and social development of the local population in the regions where we operate.
