

Wall ev charger

Wall ev charger

Wow wow wow Steve and Sam came to me home in B36 today. The install was quick and very very slick. Workmanship installing my new EV home charger was second to none. I chose Octopus because I wanted a high quality service, my expectation was smashed. If Carlsberg did EV home charges it would be Octopus. It's not about price it's about quality. Great job guys thank you for the professional and friendly service.

Excellent service in supplying and fitting an Ohme EV charger. Easily ordered through App and fitted six days later. Gary H arrived promptly and made a beautiful job of the fitting - good advice and installation. Couldn't recommend him or the service highly enough. Thank you.

We've been with [Octopus] for nearly 1yr, and it's been 100% trouble free (compared to the hell of being a *** customer!). Octopus have also installed our Ohme car charger and we get cheap EV energy along with great OctoPlus perks. Customer Service is EXCEPTIONAL, by email and phone, if you have a query, and they're friendly and sincere too. Keep up the great work Octopus!
