Where to buy solar air conditioner in ghana

Introducing the Meaco Pro 7000 BTU Portable Air Conditioning Unit with Heating (MC7000CHRPRO), a versatile climate control solution for your home or office. With 7000 BTUs of cooling power and efficient heat pump technology, it provides rapid cooling in summer and cozy warmth in winter.

The built-in air purification system filters dust, allergens, and odors, creating a healthier indoor environment. User-friendly controls and programmable settings allow you to customize your comfort, while its quiet operation ensures uninterrupted relaxation or work.

Compact and portable, the Meaco Pro easily moves from room to room, offering targeted climate control wherever needed. Its energy-efficient design boasts an A rating, making it an eco-friendly choice that won't lead to high energy bills.

The unit includes two window kits: a standard kit for sash windows and a flexible kit for any window type. These kits enhance cooling efficiency by preventing warm air from entering, ensuring optimal performance without extra purchases. The standard kit extends to 170 cm, while the flexible kit reaches up to 39 cm in width and 4 meters in length, keeping cool air in and warm air out.

The MeacoCool portable air conditioners are an ideal solution for summer comfort at home or in the office. These compact units cool and dehumidify by drawing in warm, humid air and passing it over a cold evaporator coil, providing refreshingly cool air.

Lightweight and easy to move, the MeacoCool range includes a remote control for convenient adjustments without needing to approach the unit. Operating quietly at 53dB(A) on the lowest fan speed, it's designed for comfortable living.

For best results, pre-cool rooms—like your bedroom before bedtime or your living room after work. The Sleep Mode ensures minimal noise, while the Off Timer prevents waking up too cold. Plus, models with a heating function offer warmth during winter, making the MeacoCool a versatile choice for year-round comfort.

With an airflow of 410m<sup>3</sup>/h, an energy rating of A, and the ability to cool rooms up to 35m<sup>2</sup>, the MeacoCool is the perfect blend of efficiency and performance for any space!

Hi, I am PC Boss and in this writeup I am going to give you the prices of standing Air conditioners in Ghana. Also included in this is the features and specification of various standing air conditioners from different brands.
