

Which octopus tariff is best

Which octopus tariff is best

Our tariffs. Pop in your postcode to get a full list of our available and historical tariffs, and a price breakdown of each. Want to switch to Octopus? Or if you're an existing customer and you want to switch tariffs, go to change my tariff on your online account dashboard. Want help choosing? Try our easy guide to fixed and flexible tariffs.

Explore our full range of smart tariffs. Picking the right tariff depends on the low carbon technologies you own (i.e. EVs, heat pumps, solar or battery storage) and your energy use. See what generally works best for some common combos by doing our quick quiz.

Octopus Compare App will show you comparison of tariffs for your electric usage. Prices for agile etc are wholesale based and vary day by day/hour by hour so you need to adjust how you use electricity to gain best results. Very cheap if you have solar/batteries and can shift time of use.

Octopus Tracker directly tracks wholesale energy prices and has two key features: The rates that you pay change every day. The unit rates for gas and electricity change daily, based on the latest wholesale prices (these are what firms pay for energy), and are updated at midnight each night.
