Due to new legislation, the German healthcare system is facing comprehensive modernisation and digitalisation. This transformation can only succeed with innovative technologies, such as mobile devices from Apple, which, in combination with healthcare apps, contribute to better patient care. Read more in the booklet.

In October 2025, support and security updates for Windows 10 will be discontinued. Your company could then experience massive security and operational problems. Find out now how to prevent this and what you need to bear in mind when switching to Windows 11.

Traditional data centers are increasingly hitting their limits: too rigid, too inflexible. Join our webinar to learn how the Software-defined Data Center (SDDC) makes your IT more dynamic and relieves your team. Register now and discover future-ready solutions.

Artificial intelligence is a central component of future-proof work. But what specific opportunities and use cases does this present for SMEs? Our experts discuss. Register now and join us live.
